Read what some of our online learners had to say:

- *It was so convenient for me to do this training without it having to interfere with my daily schedule.*
- *What a beautiful tool and resource to apply that just motivate me more to help parents communicate better with their children.*
- *Loved every moment of the online training! It was great to working at my own pace.*
- *I thoroughly enjoyed the Intermediate experience.... Surpassed my expectations for sure ;-)*
- *Hi Monita, Thank you so much. I thoroughly enjoyed it and learning more in Intermediate and am using it all in my class :)*
- *The Tiny Handz Online Training was such an exciting course. My favourite lesson was exercise 6 and 7. This was challenging but fun, as it got faster and also to interpret the signs. Thank you so much. What stood out for me was when I told one of the nonverbal boys to sit down (signing it) two other boys joined in and repeated it, that was awesome. I feel confident enough to do the next level.*
- *I would like to thank you for a comprehensive, memorable and fun-filled course! I thoroughly enjoyed the content and the delivery of the videos we needed to watch and look forward to the Intermediate Phase of training, which I hope to take part in soon.*
- *Thank you so much!!! I really enjoyed it a lot. I cannot wait to start with the next Course!*
- *Hi Monita, Just wanted to say thank you for a wonderful online course. The way you have explained and related the signing in a way to remember is practical and understandable. While learning, I discovered that some of these signs I've been using when expressing myself and I didn't know it was part of the SA Sign language. Once again thank you.*
- *A lovely put-together training and Monita is a great teacher and I can't believe I remembered the signs. I am going to use what I have been taught.*
- *Thank you so much for your passion for the subject. It shows in every video.*
- *This course was very well planned and prepared. Thank you.*
- *It is very interesting, and you learn a lot and if you don't understand anything, the facilitator comes back to you and help you along the way.*
- *The whole process of doing all the signs and interpreting it, was amazing. I really enjoyed it and I will definitely tell anyone in the special needs' spectrum should do it. Such a nice way of learning Sign Language the way that Monita approached it. Such a nice course! I thought was amazing.*
- *I had SO much fun! Can not wait to use all of it! Thanks Monita!*
